**From The Principal**

**Congratulations 1 & 2**

There is a lot to get through this week, including grades for 2019, however before I get into that, may I congratulate Mrs Sarah Murray and Mrs Ella Friend on the news of their respective pregnancies. Mrs Murray will be finishing up at the end of this school year before taking family leave, whilst Mrs Friend will be with us until the end of Term 1 and maybe even the start of Term 2. This takes the 2018 family leave total to 6 staff members, which I think must be a record for any school that I have worked at in one year!

**Congratulations 3**

It is with much sadness, but also great pride that I announce that Miss Emma Peel has been successful in obtaining a new role at Trinity Grammar. This is an opportunity too good to refuse, so we wish her well as she makes the transition from MPS. Emma has been an enormous part of Mulgrave PS and her efforts will leave a lasting reminder of her skill and dedication. Our Rainbow Serpent mural will be a fitting tribute to her work, as was the amazing art show this year. Emma, we wish you every success in the future.

**Congratulations 4 & 5**

This time the congratulations go to a couple of our students. Ammar U from 4F represented Mulgrave at the recent Australian Schools Athletics Championships and finished 9<sup>th</sup> in the country in shot put. What a fantastic achievement. We are very proud of Ammar's efforts and the manner in which he represented himself and the school. I'd also like to acknowledge Tiana C from 3T who has won the Christmas Card Design competition run by our Federal MP, Clare O'Neil. Tiana's design was chosen from entries across the entire Holt electorate and her work will go out to 70,000 homes across the electorate.

**No Assembly**

Due to the swimming program, there will be no assembly this week and next. The final assembly for the school year will be held on Friday Dec 21<sup>st</sup> at 12:45pm for a 1:30pm dismissal.

**2019 Staff Profile**

Whilst there has certainly been some challenges in putting together the staffing profile for 2019, they are softened by the knowledge that our staff are an incredibly versatile and skilled group. I would like to acknowledge the support of all staff members and their flexibility in taking on new roles. Aside from the aforementioned staff, we expect to maintain similar staffing in 2019. The main change is that we are moving from 18 classes to 19. Initially, that class will be in the library, as we lobby the department for additional portable buildings.

### **Education Support**

Mrs. Viki Ali, Mrs. Liz Hodder, Mrs. You Meng Hooi, Mrs. Rebecca Storan, Mrs. Tien Sumarni, Mrs. Marina Vujmilovic (here's a photo of our wonderful team enjoying a morning tea in their honour. The contribution they make to the fabric of the school cannot be understated).

### **Admin**

Mrs. Suzy Shaw (Business Manager)  
Ms. Christine Miller

### **Assistant Principal**

Mr. Stuart Hattwell

### **Principal**

Mr. Charles Spicer

\* The news around Mrs Friend is quite recent. The school currently working through the staffing of 1F and will advise parents of the outcome as soon as possible.

### **Transition Program**

Yesterday our students would have completed the first of three transitions sessions with their new classes. This is designed to enable each child to acclimatise to their new surroundings in an effort to remove the anxiety that can come with a long summer of wondering. Given this is the first year of the program, we greatly appreciate the understanding of parents in allowing any teething issues to settle, but we will most certainly appreciate your feedback for future reference.

### Election Day BBQ

My thanks to the PFA for organising and running the Election Day Market and BBQ. I would like to particularly thank Lucy Meszaros, Holly Oakes, Andrea Roberts and Stuart Hattwell for giving up their entire Saturday. I would also like to thank Melinda Collard for all of her work in planning and organising the day. As a result of the dedication of so many, the school raised \$2000. All of the funds will go towards replacing older technology in the classroom, so hopefully we will have some new screens in most classes before the start of 2019. Finally, my thanks to all of the parent volunteers on the day:

- ◆ Lucy Meszaros
- ◆ Stuart & Kate Hattwell
- ◆ Doug & Holly Oakes
- ◆ Andrea Roberts
- ◆ Scott & Sharon Adams
- ◆ Petra Tonkin
- ◆ Lisa Miles
- ◆ Daniela McCole
- ◆ Laura Cain
- ◆ David Tantis
- ◆ Kelly Tivendale
- ◆ Christine Deligiannis

### Carols and Mini-Fete

Speaking of our wonderful parent helpers, my thanks in advance to those who are assisting at the mini-fete on Dec 19<sup>th</sup>. Last year's event was a great family afternoon and evening and I am looking forward to being able to end the year with another great whole school gathering. A reminder that the mini-fete begins just after school ends and the carols will begin at 6pm. Cones will be set out to reserve space for the children and we would ask that those with deck chairs set up behind the designated space for those with blankets.

*Charles Spicer* - Principal

# A MUM'S GUIDE TO AN UNSTRESSY CHRISTMAS

## 1. Figure out what's most important to you about Christmas (and then use that to reprioritise everything)

It sounds obvious, but sometimes we can get so caught up in the activity of the season that we forget to stop and think – what is this really all for?

- Who are the people we most want to spend time with this season? (Make time for them)
- What are the things we most enjoy doing as a family at this time of the year? (Make time for those)

**Take stock, take a breath and ditch everything that doesn't add to the enjoyment (i.e. the peace and joy) of Christmas.**

### A little word about obligations

Sometimes the biggest stress comes from being pulled in too many directions by various obligations. Some of these we can't avoid, but others we can free ourselves from, like Christmas cards. Personally I don't write them. I used to, but then decided I didn't need the stress and freed myself from that one.

Another thing I do to free myself from stress is limiting the number of people I buy gifts for to immediate family only, and thank you gifts for teachers. (The financial stress is big enough at Christmas without adding to it by trying to get a gift for every member of your son's football team and all your great aunts).

Free yourself from obligations with a little word in the right ear, "The budget isn't stretching to that this year, I'm sorry." People understand. I refuse to stress myself out by loading myself down with obligations – I just do what I can and let the rest go.

## 2. Find a way to connect with the reason for the season

One of the biggest ways I stopped stressing and began actually enjoying the season was when I found a way to reconnect with the meaning of Christmas for me, i.e. the Christmas story. I keep that Christmas meaning alive and fresh in a number of other ways –

### Christmas music

I download new Christmas songs each year from iTunes to help keep my Christmas music collection fresh. I have different playlists on iTunes and Spotify for each mood – moody Christmas carols for when I feel spiritual/sentimental, fun Christmas jingles for when it's time to be merry.

### Christmas shows

We look forward to our church Nativity play each year, and try to get along to a few other local events where we can meet friends, relax and hang out. We purposely avoid the crush and the rush at the major city wide events and stay local.

### Christmas books

Reading favourite Christmas stories is a great way to connect with the season. We have a collection of Christmas books that we add to each year.

### Christmas movies

We spend hours watching old favourites and discovering new ones. This time of year there are often Christmas films on TV and Netflix. There's nothing better than snuggling up and watching a movie together, while munching on some Christmas treats.

### Christmas giving

We always try to find a way to bless others at Christmas, whether it's wrapping up a gift for needy families to put under a Wishing Tree, or getting the kids involved in Christmas kindness. Blessing others at this time of the year helps offset greed and commercialism and always leads to great warm fuzzies (giving is the real magic of Christmas).

## A MUM'S GUIDE TO AN UNSTRESSY CHRISTMAS

### 4. Don't reinvent the wheel – take shortcuts

It is possible to have Christmas fun without all the stress. If you aren't the type who enjoys baking, why tear your hair out over a made-from-scratch gingerbread house that won't stick together? Get a cheap ready-made kit from Kmart instead and let the kids have fun lathering it in lollies. Use store-bought custard and sponge cake for the Christmas trifle, put cream on a Cowells pavlova, heat up an Aunt Betty's Christmas pudding in the microwave. Don't feel like you have to make/bake everything from scratch – give yourself a break and find a shortcut.

Here's a tip that will save your Christmas Eve – wrap the presents as you buy them. Don't wait until Christmas Eve to wrap them all at in one hit. This is a thankless back-breaking exercise which is sure to keep you up late wondering why you bought so much stuff. Wrap-as-you-go lets you just chill and enjoy Christmas Eve, when not a creature is stirring, just you with a glass of wine, (store-bought) Christmas mince tarts and candlelight.

### 5. Don't compare

Whatever you do, don't compare your Christmas efforts to others'. Fill your house with Christmas in your own way. The danger of social media is that we can start to compare our efforts to the picture-perfect awesomeness we see in our newsfeeds. Down this road of comparison lies discontent and dissatisfaction. Don't go there.

Look for inspiration on the net, by all means, but don't let it make you feel like your Christmas efforts are not 'enough'. Instead fill your house with your own sense of the season: your special memories and things that mean Christmas to you. For us it's decorating a real pine tree (for that instant Christmassy smell) with the decorations we've collected through the years and lighting candles and twinkle lights at night. On Christmas Eve we hang stockings, watch a Christmas movie and eat our store-bought, lolly-lathered gingerbread house. You do you.

If your Christmas to-do list is too long and you're lying awake at night wondering how you're going to do it all, it may be time to edit that list. So what if we've ticked off doing all the Christmas activities and traditions from our list but we've exhausted ourselves in the process and can't wait until the whole jolly rigmarole is over? Sometimes less is more.

# School News

## Plastic is a danger to the wild life and the environment.

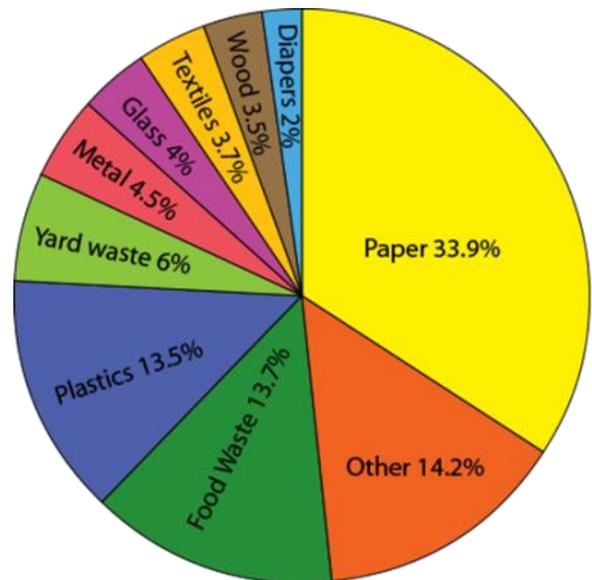

Plastic bags take a long long time (1000 years) to disintegrate. Plastic bags can be melted but they will just turn back into a solid once again.

Plastic can be recycled but because of the weight of the plastic bags, the wind can just blow the plastic bags away. That ends up in the sea or attached to any type of wild life. The wild life will think that the plastic bags are food, then eat it and the plastic does not digest properly in their stomachs, and they may die. Or, the plastic can choke them and they can die that way.

We all need to make a stand, and change the way we live. The way we live now we are endangering wild life. The wild life are a part of our lives too.

This pie chart is all about how we kill wild life without even knowing it. Knowing about this will help because we love ANIMALS and we don't want to hurt them. This includes your dogs, cats and fish. They all are wild life so if you do not want to hurt them we need to be better at recycling.

We need to be more mindful of recycling especially the way we recycle the plastic. Furthermore plastic is something that we can get rid of, what did we use before plastic was made? We used material and paper bags.

The amount of plastic that we use is so much that we have actually created an island full of plastic. Unfortunately because we keep using plastic and don't recycle it properly it is getting larger. If everyone helps get rid of plastic and/or recycle it properly we can fix the problem and we will never see this type of island ever again.

# School News

Here is another reason that we need to change the way that we recycle. Plastic is harmful because it is Non-Biodegradable. That is one of the biggest problems with plastic, it doesn't disintegrate.

Some people think that we should change the plastic material so it can be disintegrated. This will change our lives, and will make our lives easier for us to protect the environment/wild life. Unfortunately some people don't care about the wild life and the environment. However they do not know that the environment /wild life involve our lives too.

There are 3 ways we can make the environment better; we can get rid of plastic all together, we can change the way that we recycle, we can also change the materials that are used in plastic, so it can be disintegrated.

That is why I want to change the way that Melbourne recycles and save the environment and wild life.

Mulgrave Primary School Parents and Families

## THANK YOU! THANK YOU! THANK YOU!

With only two weeks to go we have come to the tail end of PFA activities, so it is time to say a massive **THANKS** to all the parents who have helped out this year with raffles, bake sales, pie days, pizza day, Mothers & Fathers days, endless BBQs and much much more.

Without people willing to take time out to help we are not able to run special days and events, that help raise funds that will benefit our kids. We are a growing school and hope to ensure that the spirit of community grows with our school, so we appreciate our families helping out.

This year our events have raised over \$5000 that has been channelled back into the classrooms for resources. In addition to the events our book club drive has raised over \$700 for reading resources that teachers have already used to support early reading development.

THANKS AGAIN..... but wait there's just a bit more!!

### Mulgrave PFA will be hosting a second-hand uniform sale on Tuesday 11<sup>th</sup> December 8.45 am-9.30am in front of the canteen.

## Extend OSHC at Mulgrave Primary School

Hi Everyone,

This year has gone flying by so quickly, I can't believe there's just over only 2 weeks left for schooling!

Over the last couple of weeks, the children have been involved in various activities, to extend their skills. In art and craft, we explored different mediums of art to create awesome pictures. We learnt to make colourful fire-works with salt and circle art water paintings. The children did a fantastic job creating both of these art works, which are now displayed in the room. In another art activity, we made cute hot air balloons and drew cool creative pictures on them.

In science, we investigated the effect oil spills have on the environment and how it's endangering sea life. In another experiment we learnt to make colourful Borax Crystals. To extend children's learning further, we had a science quiz on Monday, it was great to see lots of hands raised their raising to answer questions. Pokemon catapult activity gave children an opportunity to create their own catapult and learn the physics behind rubber band force.

Our master chef loved making delicious Zucchini cheese patties and Ginger bread cookies. The last two Fridays, we made appetizing pancakes in our breakfast club, it was so delicious that everyone couldn't stop asking for more!

Beside these activities, we loved a variety of team games and challenges. Our spelling bee challenge and Pacman quiz were fun and educational. Captains ball, Tunnel ball, Rock paper scissor relay, cops and robbers team building games, given them an opportunity to extend their social and physical skills.

Last week on Friday our Auslan word quest was amazing, everyone tried to show case their learning and did their best to identify the words.

### Our Extend Superstars are:

<b>Harley</b>	<b>For looking after our garden. Well done Harley, keep up the good work!</b>
<b>Thasith</b>	<b>For a taking role of class monitor. Well done Thasith keep up the good work!</b>

### Next weeks activities are:

**Monday 10th December:** Science - Tornado in the bottle/ Mat ball

**Tuesday 11th December:** : Christmas craft - Chimney Santa Claus/Mazic carpet

**Wednesday 12 December:** Christmas craft - Picture frames/ Gymnastic challenge

**Thursday 13th December:** Specialist Cooking - Vegetable Fritters/ Guards and Soldiers

**Friday 14th December:** Ball tiggly/Basket ball challenge

Kind regards

## Extend OSHC at Mulgrave Primary School

### Learn | Aid | Appreciate

Each year Extend launches Extend-a-Hand, a major social initiative that educates primary school children on the benefits to contributing to the wider community. This year, we are extending a hand to our hard working farmers who have been suffering through one of the worst droughts in living memory.

Learn | Children will learn about weather systems and cycles, the impact of drought and who really provides our food.

Aid | Extend has partnered with GIVIT.org.au to raise funds for farmers and their farmers

Appreciate | Children will create handwritten letters and drawings expressing sentiments of gratitude and encouragement to the farmers and their families.

Visit Extend's donation page via GIVIT and participate in this fantastic cause!
