# 2017 Annual Report to the School Community

School Name: Mulgrave Primary School

School Number: 2172

- All teachers at the school meet the registration requirements of the Victorian Institute of Teaching (<u>www.vit.vic.edu.au</u>).
- The school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2017 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- The school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 12 April 2018 at 03:49 PM by Charles Spicer (Principal)

- All teachers employed or engaged by the school council meet the registration requirements of the Victorian Institute of Teaching.
- To the extent that the school council is responsible, the school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2017 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- To the extent that the school council is responsible, the school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 – Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 30 May 2018 at 09:30 PM by Edmond Meszaros (School Council President)

Education and Training

### **About Our School**

### School Context

Mulgrave Primary School is a vibrant and effective school that is proudly reflected in its enthusiastic, skilled and passionate staff. The school is committed to providing the best teaching and learning opportunities possible for each of our students, recognising their individual learning styles, social, emotional, academic and other specific needs. As a result of our peer review in 2017, our school values are now also our motto – "Motivated, Persistent, Successful" and highlight our vision to fully develop the skills and abilities of each student.

Mulgrave Primary School is set in large, well-maintained spacious grounds with excellent facilities that are well utilised by the wider school community. The school has a history that dates back to 1879. Enrolments at the school have continued to rise over the last decade and in 2017, our student population was 352 (160 female and 158 males), reflecting our growing reputation for high quality student outcomes. 25% of our student population are classified as EAL students (English as an Additional Language).

Our staffing profile consisted of 26 teaching staff members (Full Time equivalent 22.6), including a Principal, Assistant Principal and Leading Teacher. In addition, the school is supported by 7 non-teaching staff (Full Time Equivalent 4.54), including a full time Business Manager and part time Education Support staff.

A strong partnership has continued to flourish between parents, students and staff which is reflected across all areas of the school. Mulgrave Primary School is committed to providing quality education that prepares all students to succeed and reach their full potential in our ever-changing world. The school community supports our school values (above) which are supported through a shared set of school rules that include respect, responsibility, safety, resilience and listening.

Teachers are very skilled in delivering quality classroom programs that are effective and reflect current best practice. Our focus is on each student's individual point of need and explicit teaching, ensuring that literacy and numeracy are given a high priority. CAFÉ literacy and the Daily 5 model are features of our literacy instructional model. Our numeracy programs feature explicit teaching and incorporate opportunities for students to engage in hands-on activities, to assist with the consolidation of mathematical concepts and new learning. Specialists programs at the school include Music, Art, Physical Education, Sport, Science and Chinese Mandarin. Private music lessons are offered to all students. Ongoing, diagnostic assessment is implemented at all year levels to ensure that teachers can analyse progress, with an eye on aiming for 18 months growth over a 12 month period, ensuring that every child is supported to achieve their best. All curriculum planning, implementation and assessment is based on the Victorian Curriculum. English and Mathematics continue to be the highest priorities for teacher professional learning and resourcing.

Continuous improvement in all areas of teaching and learning is a high priority at Mulgrave Primary School. Our school is very well resourced in computer technology with every classroom equipped with an interactive whiteboard or interactive television. We strongly believe that it the school's responsibility to provide 21<sup>st</sup> century learning tools for our students who regularly use a wide range of devices in their learning e.g. netbooks, desktops, laptops, ipads, flip video cameras, still cameras, although our learning programs are not dependent on technology and we are mindful of screen time. Major events include our whole school musical production, swimming and camping programs. A wide range of lunchtime club activities are offered to students throughout the year. Sport is given a high profile at Mulgrave Primary School. All students participate in school-based sport and physical education, as well as tennis, soccer and other clinics. Our middle and senior students participate in interschool sports and have achieved considerable success. The school also delivers a strong wellbeing program and provides additional counselling resources to engage our students and support them wherever needed.

Our school boasts a lovely garden environment area. We encourage all students to participate in growing and planting vegetables and experience the excitement of trying new foods and cooking up the produce. We have a recycling program in place across the school and continue to enhance the physical learning environment. Our Junior School Council representatives are actively involved in this program and other school beautification programs. Student leadership is a strong feature of our school's philosophy. Students are encouraged to take on responsibilities in many areas. This develops student confidence, self-esteem and a shared ownership and pride in the school.

### Framework for Improving Student Outcomes (FISO)

Collaboration is a significant component of the state government's 'Education State' direction and within this, the 'Framework for Improving Student Outcomes'. Building communities of practice is a significant step in improving student outcomes across the state and Mulgrave PS has formed a 'FISO Network' to achieve this aim in partnership with Jells Park, Brandon Park and Albany Rise Primary Schools. The aim of our network is to build teacher capacity and practice excellence in the delivery of our shared writing programs.

This collective effort will build leadership teams and see our network of schools share resources, improve accountability practices, moderate across schools and develop greater consistency in our curriculum planning and assessment to ensure that every student's point of need is catered to. By working beyond our individual schools, exploring cutting edge research and embedding high quality teaching and learning, our FISO network will seek to improve our practice from "good to great".

### Achievement

Student achievement results for 2017 reflect a commitment to high quality teaching and learning programs that meet each student's individual point of need. All staff members have engaged in quality professional learning aligned to educational best practice, focusing on our 4 yearly review and revising our assessment practices to better measure academic growth. Assessment data is collected regularly and analysed by teachers and the school's leadership team to ensure that we are meeting and responding to the needs of each student.

Teacher judgements of student outcomes remains exceptionally high. Our 2017 achievement data relating to the percentage of students in Years Prep to 6 who are at or above the expected level in English and Mathematics is considerably higher than that of the median for all other Victorian government primary schools.

We strongly encourage our students to participate in the NAPLAN. In Reading and Numeracy at Year 3 and Year 5, our student results were above the median of all Victorian government primary schools. In particular, all areas showed that MPS was ahead of the median in terms of students performing in the top 3 bands, with Year 3 Reading the standout at 89.6% compared to the state median of 74.3%.

### Engagement

Mulgrave Primary School aims to provide experiences for all students in order that they develop a strong sense of belonging, leadership qualities, resilience, engagement and motivation to learn, as well as developing a strong sense of values in line with the school's Student Engagement and Inclusion Policy. In 2017 student attendance was positive with all year levels achieving a 92% or higher attendance rate. This achievement was higher than the state average attendance rate. Common reasons for non-attendance included illness and extended family holidays. The school will continue promoting improved levels of attendance through school communication and other tools and strategies that have been put in place.

The Attitudes to School Survey data for Year 5 and 6 students continues to be very positive. Data reported in relation to 'Connectedness to School' and 'Student Perceptions of Safety' continues to be high by comparison to the state average. Whole school programs and activities along with a harmonious school community, assist our students to feel a sense of belonging and engagement when at school. Transition programs, lunchtime activities, review of Units of Work studied, school values, all assist with achieving our goal of delivering social, emotional and academic growth.

### Wellbeing

Mulgrave Primary School provides experiences for all students that enhance motivation and readiness to continue the next step in their learning. The school has links with local preschools and secondary settings and our school's Buddy and 'Step Into Prep' programs ensure that children feel socially and emotionally secure coming to school. Likewise, our secondary transition programs effectively develop confidence and security for students moving into the next phase in their education.

The changes to the student survey highlighted some particular areas for the school to work on however, particularly in supporting our Year 4 cohort in making the step into the senior school. 2017 was the first year that this data was included in the survey and it will enable us to better meet the needs of our students. Significantly, whilst our management of bullying is considered lower compared to similar schools, it was by far the best outcome in terms of the percentage of students who endorsed the school's practice.

As a result, steps were taken to identify areas where we could increase student voice and a renewed whole school commitment to ensure a positive climate for learning for our students will deliver a revised approach for 2018.

...cont./

The school also incorporates many wellbeing initiatives into our curriculum including eSmart, cybersafety, lunchtime clubs, camps, excursions and explicit consequences and disciplinary processes including Restorative Practice.

The continued employment of a Student Wellbeing Officer has enabled us to provide social and emotional care for our students and families, particularly those who at times, require specific assistance.

> For more detailed information regarding our school please visit our website at www.mulgraveps.vic.edu.au

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

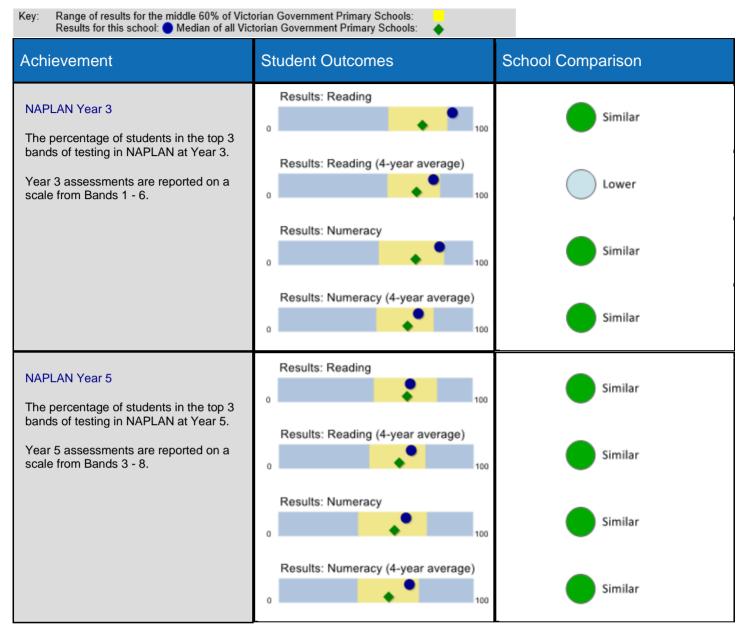

Members of the community can contact the school for an accessible version of these data tables if required.

# How to read the Annual Report

### What does the About Our School section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

# What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

#### Achievement

- student achievements in:
  - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
  - English and Mathematics for teacher judgements against the curriculum
  - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

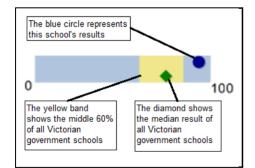

### Engagement

- student attendance and engagement at school
  - how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

### Wellbeing

- Attitudes to School Survey (ATOSS)
  - Sense of connectedness
  - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

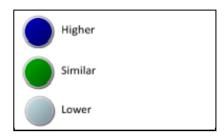

### What does School Comparison refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are 'Similar' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have 'Higher' performance. Some schools have 'Lower' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at: <u>http://www.education.vic.gov.au/school/parents/involve/</u> Pages/performance.aspx

#### What does 'Data not available' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

#### What is the Victorian Curriculum?

The Victorian Curriculum F–10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

### **Financial Performance and Position**

### Financial performance and position commentary

[Please refer to the <u>2017 Annual Report Guidelines</u> for information on how to complete the 'Financial Performance and Position Commentary' section]

| Total Operating Expenditure  | \$2,890,688 |   |           |
| Net Operating Surplus/-Deficit   | \$160,929   |   |           |
| Asset Acquisitions   | \$65,812    |   |           |

(1) The Equity funding reported above is a subset of overall revenue reported by the school

(2) Student Resource Package Expenditure figures are as of 05 March 2018 and are subject to change during the reconciliation process.
 (3) Miss Expenses may include bank charges, health and personal development, administration charges, camp/excursion costs.

(3) Misc Expenses may include bank charges, health and personal development, administration charges, camp/excursion costs and taxation charges.

(4) Salaries and Allowances refers to school-level payroll.

#### School Summary:

Mulgrave Primary School remains in a sound financial position. The 2017 operating surplus includes funds earmarked for building works in 2018. The school continues to invest heavily in teacher professional learning to further develop teacher capacity. Program budgets for English, Mathematics and Digital Technologies remain very high to enhance and optimise student learning in these key learning areas. The school's equity money enabled the school to employ a dedicated Speech Therapy Assistant who also supports an English as an Additional Language program. A predicted student number increase in 2018 is anticipated. In 2017 the school raised over \$20K and this money in conjunction with the money the PFA will raise in 2018 is intended to be used to complete a covered outdoor learning area for our senior students. Our school has also worked hard to acquire additional funds through grants beyond the SRP such as the Commonwealth funded Sporting Schools grants. These funds have been used to increase our student's participation in sport and to connect them with community sporting organisations. These have added to our extra-curricular sport program both in and out of school hours. The school has continued to manage its financial resources in a very prudent manner for 2017, whilst maintaining and developing the number of outstanding learning opportunities for our students.

All funds received from the Department, or raised by the school, have been expended, or committed to subsequent years, to support the achievement of educational outcomes and other operational needs of the school, consistent with Department policies, School Council approvals and the intent/purposes for which funding was provided or raised.
